## **DETAILED ACTION**

### ***Reasons for allowance***

1. The following is an examiner's statement of reasons for allowance: Applicant's response in view of the amendments and/or remarks filed on 09/04/09, have been reviewed and respectfully considered. The amendments are believed to be persuasive, and the rejection of the previous office action has been withdrawn.

Upon further review and search, Claims 1-6, 8-21, 23-57, are considered allowable since when reading the claims in light of the specification, as per MPEP §2111.01 or *Toro Co. v. White Consolidated Industries Inc.*, 199 F.3d 1295, 1301, 53 USPQ2d 1065, 1069 (Fed. Cir. 1999), none of the references of record alone or in combination disclose or suggest the combination of limitations specified in claims 1-6, 8-21, 23-57, as further, discussed below:

**Referring to claims** 1-6, 8-21, 23-57, the prior art searched and of record neither anticipates nor suggests a method of processing an image of elements, comprising: assigning each of multiple ones of the elements a respective element label selected from a set of at least three element labels that includes at least one edge element label; grouping spatially connected ones of the elements into respective blobs based on the element labels assigned to the elements, wherein each of the blobs is assigned a respective one of at least two blob labels; and processing ones of the

elements based at least in part on the blob labels assigned to the blobs and the element labels assigned to the elements; wherein the assigning, the grouping, and the processing are performed by a processor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
